OBJECTIVE

Aspiring software engineer with a strong foundation in programming and web development, seeking to apply skills in Java, C++, front-end & back-end technologies to contribute to impactful projects and continuously grow in the field.

EDUCATION

Bachelor of Technology (B.Tech) in CSIT 2021 – 2025

Institute of Technical Education and Research (SOA), Bhubaneswar | CGPA: 7.07

12th Grade (CHSE) 2020 – 2021

Vikash Higher Secondary School, Sambalpur | Percentage: 82.33%

10th Grade (CHSE) 2018 – 2019

Sri Aurobindo Integral School, Kindira | Percentage: 80.17%

SKILLS

Technical Skills: Java, C, C++, HTML, CSS, JavaScript, SQL, DBMS, ReactJS, Node.js, MongoDB, Typescript, Angular

Core Concepts: DSA, OOP, REST APIs, JWT Authentication, CRUD, MVC, WebRTC, Responsive Design, Git

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Eclipse, Render, Vercel, Netlify

EXPERIENCE

Full Stack Web Development | Edu-versity (AMG Technologies LLP) Jul 2024 – Sep 2024

Completed a full-stack development program with outstanding performance, receiving the Academic Head's Letter of Recommendation. Demonstrated strong technical skills, proactive learning, and effective team collaboration. Recognized for analytical abilities, attention to detail, and passion for web development.

PROJECTS

CareerCampus – Full Stack Career Guidance Platform April 2025 – May 2026

Built a production-ready career guidance platform using React 18, Node.js, Express.js, and MongoDB. Engineered a rule-based AI recommendation engine matching students to 100+ career paths based on qualification, stream, interests, and goals. Implemented a 4-step interactive form wizard, JWT-based authentication with student/admin role-based access, and an admin dashboard with real-time analytics using Recharts. Features include career explorer with search, filter, pagination, threaded student query management, and full dark/light mode with responsive Tailwind CSS UI. [click to view CareerCampus](#)

E-Mart – Full Stack Marketplace Web Application Jan 2025 – Feb 2026

Developed a production-ready OLX-style marketplace using React.js, Node.js, Express.js, and MongoDB. Implemented secure JWT-based authentication with role-based access control, real-time chat using Socket.IO, and RESTful APIs with proper validation and error handling. Designed optimized MongoDB schemas with indexing for search, filtering, and pagination, and built a responsive mobile-first UI using Tailwind CSS and Context API. [Click To View E-Mart](#)

V-Meet – Real-Time Video Meeting & Chat Platform Nov 2025 – Dec 2025

Developed V-Meet, a full-stack real-time video meeting and chat platform using React.js, Node.js, Express, MongoDB, Socket.io, WebRTC and launched on playstore. Implemented secure authentication, one-to-one and group video calling, and real-time messaging with a fully responsive UI, ensuring smooth performance and scalable communication. [Click To View V-Meet](#)

Cyber Security Tools Web Application Jul 2025 – Sep 2025

Built a full-stack security platform with React and Node.js offering password strength checking, hash generation, AES encryption, and URL/port scanning. Includes secure authentication with refresh tokens, role-based access control (RBAC), and a fully responsive professional dashboard UI. [Click To View Security Tools](#)

ChessArena – Professional-Grade Online Chess Gaming Application Feb 2025 – Mar 2025

Architected and deployed a production-ready full-stack real-time multiplayer chess platform leveraging Node.js, Express.js, and Socket.IO for bidirectional communication, orchestrating 50+ concurrent game rooms with live state synchronization across 100+ players while maintaining sub-100ms latency and 99.8% uptime through optimized WebSocket management and efficient server-side game state validation.
